

ALEK PETTY - CURRICULUM VITAE

DATE CREATED: August 2020.

ADDRESS: 8800 Greenbelt Rd, Greenbelt, MD, 20771

PHONE: (+1) 202-733-0254

WEBSITE: www.alekpetty.com / EMAIL: alek.a.petty@nasa.gov / TWITTER: @alekpetty

RESEARCH SUMMARY

RESEARCH INTERESTS: Polar sea ice; atmosphere-ice-ocean interactions; climate variability.

RESEARCH APPROACH: Remote sensing (satellite and airborne) and direct (*in-situ*) observations; geospatial/statistical analysis; developing, adapting and analyzing climate models of varying complexity; numerical simulations.

PROFESSIONAL APPOINTMENTS

2020-Now	ASSOCIATE RESEARCH SCIENTIST NASA Goddard Space Flight Center, Greenbelt, MD, USA Earth System Science Interdisciplinary Center, University of Maryland, College Park, MD, USA
2017-2020	ASSISTANT RESEARCH SCIENTIST NASA Goddard Space Flight Center, Greenbelt, MD, USA Earth System Science Interdisciplinary Center, University of Maryland, College Park, MD, USA
2015-2017	POSTDOCTORAL ASSOCIATE NASA Goddard Space Flight Center, Greenbelt, MD, USA Earth System Science Interdisciplinary Center, University of Maryland, College Park, MD, USA
2014-2015	POSTDOCTORAL ASSOCIATE NOAA Laboratory for Satellite Altimetry, College Park, MD, USA Earth System Science Interdisciplinary Center, University of Maryland, College Park, MD, USA

EDUCATION & QUALIFICATIONS

2010-2014	PH.D, CLIMATE SCIENCE Centre for Polar Observation & Modelling, University College London, London, UK Thesis Title: Sea ice and the ocean mixed layer over the Antarctic continental shelf Supervisors: Daniel L. Feltham & Paul R. Holland
2006-2010	MSCI, PHYSICS (1ST CLASS HONOURS) University of Bristol, Bristol, UK

GRANTS AND FELLOWSHIPS (FUNDED)

NASA A.36 Studies with ICESat-2 NNH19ZDA001N-ICESAT2 (5/1/20-4/31/22), Advancing understanding sea ice topography across scales and seasons, total budget: \$600,000 (my budget: \$80,240), PI: Rachel Tilling, Co-Is: Alejandro Egido, Alek Petty, Role: Co-I. (successful)

International Arctic Science Council cross-cutting funding (June 2019), CoAST: Coastal Arctic Science Teams, total budget: \$8,000, PI: Alice Bradley, Co-Is: Alek Petty, Role: Co-I (**successful**)

NASA A.16 Cryospheric Science NNH17ZDA001N-CRYO (1/1/19-12/31/21), A Coupled Antarctic Cryosphere System: Linking Ice Sheet Surface Mass Balance Processes and Ocean Surface Variability Across Coastal Antarctica, total budget: \$425,000 (my budget: \$49,969) PI: Luke Trusel, Co-Is: Jan Lenaerts, Alek Petty, Role: Co-I (**successful**)

International Arctic Science Council cross-cutting funding (June 2018), Improving our understanding of extreme events in the Arctic using a cross-disciplinary approach - a discussion group at POLAR 2018, Total budget: \$6,000, PI: Alek Petty, Co-Is: Thomas Armitage, Manisha Ganeshan, Role: PI (**successful**)

NASA Summer Internship (July-August 2018), Improving sea ice predictions using novel machine learning tools, Total budget: summer student stipend, PI: Alek Petty, Summer Student: Akira Sewnath, Role: PI

(successful)

International Arctic Science Committee (IASC) Fellow for the Cryosphere Working Group, 2016–2019 (travel award to support attendance at international planning meetings).

UK National Environment Research Council postgraduate award. Awarded to University College London, 2010–2014.

INTERNAL FUNDING

NASA's ICESat-2 Project Science Office, (since 1/1/18, renewed annually), Project Lead: Nathan Kurtz, Personal Budget: 0.3 FTE/year.

PolarMERRA, (10/1/20–09/30/2021, pending renewal), NASA Earth Science funding, Project Lead: Thorsten Markus, Personal Budget: 0.3 FTE/year.

NASA's Operation IceBridge Project Science Office, (since 10/1/15–09/30/2021), Project Lead: Joe MacGregor, Personal Budget: 0.33–1.0 FTE/year.

NASA-ESA Snow On Sea Ice (NESOSI), (10/1/17–09/31/2019), NASA Earth Science funding, Project Lead: Thorsten Markus, Personal Budget: 0.33 FTE/year.

INVITED PERSPECTIVES AND COMMENTARIES

- Petty, A. A.** (2018), A possible link between winter Arctic sea ice decline and a collapse of the Beaufort High?, *Geophys. Res. Lett.*, doi:10.1002/2018GL077704 (invited commentary).
- Petty, A. A.**, T. Markus, N. Kurtz (2017), Improving our understanding of Antarctic sea ice with NASA's Operation IceBridge and the upcoming ICESat-2 mission, *US CLIVAR Variations*, 15, 3 (invited perspective).

OTHER PUBLICATIONS

- 2016 Sea Ice Prediction Network, Sea Ice Outlook post-season report, (co-author/action team member).
- 2015 Sea Ice Prediction Network, Sea Ice Outlook post-season report, (co-author/action team member).
- Petty, A. A.** (2013), Impact of Atmospheric Forcing on Antarctic Continental Shelf Water Masses, PhD Thesis, University College London, UK.

TEACHING EXPERIENCE

2019–2020	Tutor and hackweek instructor at the ‘University of Washington’s ICESat-2 hackweek’ providing support to the sea ice participants regarding data retrieval and analysis, University of Washington, June 2019 and June 2020.
2019	Guest lecture on ‘Polar sea ice and global climate’ for the Environmental Sciences, American University, Feb., 2019.
2018	Guest lecture on ‘Polar sea ice and the global climate system’ for the Department of Atmospheric and Oceanic Science, University of Maryland, Apr., 2018.
2017	Guest teacher on ‘Polar Science at NASA’ for K7 and K12 students, Sitka Alaska, Oct., 2017.
2015–2017	MADE CLEAR climate change scientific expert - providing advice to K-12 teachers in Maryland/Delaware. Contributed to the new Climate Change Learning Progression draft, 2015-2017.
2016	Python for Cryospheric Sciences monthly meet-up organizer, NASA Goddard Space Flight Center.
2013	ASPIRE after school course, The Melting Planet, City & Islington College, London, UK on climate change and the polar regions (6 weekly lessons).
2011–2013	UCL Earth Sciences GEOL 3039 course ‘Physics of Oceans, Ice Sheets & Climate’, teaching assistant.
2011–2013	UCL Earth Sciences GEOL 1006 course ‘Foundations of Physical Geoscience’, teaching assistant.
2011–2013	UCL Earth Sciences undergraduate mathematics tutor.

SUPERVISING EXPERIENCE

Support Scientists

Dr. Marco Bagnardi, NASA Goddard Space Flight Center (co-supervisor, since 2019).
Assessing ICESat-2 sea ice data (primary supervisor: Dr. Nathan Kurtz).

PhD Students

Joshua McCurry, University of Maryland (co-supervisor, pending funding support).
Project TBD (Primary supervisor: Dr. Jonathan Poterjoy).

Rebecca Frew, University of Reading (co-supervisor, since 2015).
Sea ice and climate feedbacks in the Southern Ocean (primary supervisor: Dr. Daniel L. Feltham).

Steven Wolbach, University of Maryland (co-supervisor, 2016, did not finish).
Beaufort Gyre ice-ocean dynamics (primary supervisor: Dr. James L. Carton).

Masters Students

Ryan Klasky, University of Maryland (primary supervisor, 2016-2017).
Antarctic sea ice forecasting .

Colton Byers, United States Naval Academy (co-supervisor, 2016).
Arctic sea ice mapping using low-cost aerial drones (primary supervisor: Dr. Joseph P. Smith).

Visiting Students

Alex Cabaj, University of Toronto (co-supervisor, spring 2019)
Constraining snow on Arctic sea ice (primary supervisor: Dr. Paul Kushner).

Summer Students

Nicole Keeney, NASA Goddard Space Flight Center (primary supervisor, summer 2020)
New estimates of winter Arctic sea ice growth from ICESat-2.

Akira Sewnath, NASA Goddard Space Flight Center (primary supervisor, summer 2018)
Arctic sea ice forecasting using novel machine learning tools.

- 2012 **Petty, A.A.**, D.L. Feltham and P.R. Holland: Impact of atmospheric forcing on Antarctic shelf water masses, *Forum for Research into Ice Shelf Processes*, Uto, Sweden, 12th–14th June 2012 (oral).
- 2011 **Petty, A.A.**, P.R. Holland, and D.L. Feltham: Sea ice and the ocean mixed layer over the Antarctic shelf seas, *American Geophysical Union Fall meeting*, San Francisco, CA, USA, 5th–9th December 2011 (poster - winner of the Outstanding Student Paper Award (OSPA) in the cryosphere section).

ACADEMIC SERVICE

Project Teams and Memberships

NASA's ICESat-2 Project Science Office, 2018–present.

NASA's Operation IceBridge Project Science Office, 2015–present.

US delegate to the International Arctic Science Committee (IASC), 2018–present.

Cryosphere Working Group Early Career Fellow, International Arctic Science Committee (IASC), 2016–2019.

Sea Ice Outlook Action Team, Sea Ice Prediction Network, 2015–2017.

American Geophysical Union (AGU) member, 2011–present.

Association for Polar Early Career Scientists (APECS) member, 2011–present.

UK Polar Network member, 2011-2014.

Campus Committees

ESSIC Appointment, Evaluation and Promotion (AEP) committee member, 2018 onwards.

Steven Fons, PhD prospectus defense (member of the specialty exam committee, University of Maryland, March 2019).

Session Convening

Polar Atmospheric Processes and Their Interactions with Land, Ice, and Ocean at the AGU Fall Meeting 2018 (co-convenor).

Reviewer

Geophysical Research Letters, Journal of Geophysical Research, Journal of Climate, The Cryosphere, Journal of Glaciology, IEEE, Journal of Physical Oceanography, Remote Sensing.

Snow, Water, Ice and Permafrost in the Arctic (SWIPA) follow-up assessment.

National Science Foundation, Division of Polar Programs.

Review Panels

NASA GSFC HBG peer award panel, 2020.

NASA Future Investigators in NASA Earth and Space Science and Technology (FINESST), 2018.

National Science Foundation, Division of Polar Programs, 2015.

Workshops (organizing)

University of Washington's NASA ICESat-2 (virtual) hackweek, University of Washington, Seattle, 10th-24th June 2020 (tutor, funded).

University of Washington's NASA ICESat-2 hackweek, University of Washington, Seattle, 17th-21st June 2019 (tutor, funded).

Improving our understanding of extreme events in the Arctic using a cross-disciplinary approach, focus group discussion at POLAR 2018, Davos, Switzerland, 20th–23rd June 2018 (organizer, funded workshop).

Workshops (attendee)

Arctic Change workshop, Boulder, CO, USA, 9th–12th April (invited, travel award).

Extreme Science and Engineering Discovery Experiment (XSEDE) 2016 Polar Hackathon, Sea Ice Team member, Miami, FL, USA, 16th–21st July 2016 (travel award).

Forum for Arctic Modeling & Observational Synthesis (FAMOS) workshop, Cape Cod, MA, USA, 3rd–6th November 2015 (travel award).

New Generation of Polar Researchers Leadership Symposium, Wrigley/Boone Center for Environmental Science and Leadership, CA, USA, 2nd–9th May, 2015 (invited, travel award recipient).

NERC 'Engaging the public with your research' workshop, NERC, Swindon, UK, 12th–13th December 2013.

ResClim 'Role of sea ice in climate system' summer school, UNIS, Longyearbyen, Svalbard, 27th June–8th July 2011.

NERC/NCAS Earth System Science Spring School (ES4), Cambridge, UK, 4th–15th April 2011.

AWARDS

NASA GSFC Robert H. Goddard Award, Science Team (Operation IceBridge), 2020.

NASA GSFC Hydrospheric and Biospheric Sciences Laboratory (HOBI) Award for outstanding scientific achievement, 2019.

American Geophysical Union Fall meeting Outstanding Student Paper Award (OSPA) in the cryosphere section, 2011.

FIELD EXPERIENCE

NASA's Operation IceBridge Antarctic campaign, Nov. 2016, Role: Science advisor, outreach.

Joint Ocean Ice Study (JOIS)/Beaufort Gyre Exploration Project (BGEP) Arctic research expedition, 20th Sep.–19th Oct. 2016, Role: On-ice lead scientist (ice cores, thickness transects), ship-based sea ice observations.

NASA's Operation IceBridge spring Arctic campaign, Apr. 2016, Role: Science advisor, outreach.

Joint Ocean Ice Study (JOIS)/Beaufort Gyre Exploration Project (BGEP) Arctic research expedition, 20th Sep.–16th Oct. 2014, Role: On-ice lead scientist (ice cores, thickness transects), ship-based sea ice observations.

MEDIA AND PUBLIC OUTREACH

- NASA data visualization of our new ICESat-2 Arctic sea ice thickness data, used in the summer NASA Live Shots filming <https://svs.gsfc.nasa.gov/4734>, (lead scientist contributing to the production and providing the source data).
- IASC news article <https://iasc.info/communications/news-archive/531-interdisciplinarity-in-iasc-extreme-events-in-the-arctic-a-polar2018-focus-group-discussion> on our extreme Arctic events discussion group.
- NASA news story and press release of my paper ‘Warm Arctic, increased winter sea-ice growth?’: <https://www.nasa.gov/feature/goddard/2018/wintertime-arctic-sea-ice-growth-slows-long-term-decline-nasa>, additional coverage in various media outlets (quotes and draft assistance, Nov. 2018).
- NASA news story and press release on low winter 2018 Arctic sea ice extent: <https://www.nasa.gov/feature/goddard/2018/arctic-wintertime-sea-ice-extent-is-among-lowest-on-record>, additional coverage in various media outlets (quotes and draft assistance, Mar. 2018).
- NASA news story and press release on warm winter events in the Arctic: <https://climate.nasa.gov/news/2690/unusually-warm-winter-breaks-up-sea-ice-in-the-arctic/>, additional coverage in various media outlets (quotes, Feb. 2018).
- Yale 360 article on the Arctic Ocean’s Beaufort Gyre and what a release of its freshwater might mean for Europe: <https://e360.yale.edu/features/how-a-wayward-arctic-current-could-cool-the-climate-in-europe> (quotes, Dec., 2017).
- Public lecture on ‘Rapid declines in Arctic sea ice, what does this mean for Alaska?’, Sitka Natural History Seminar series, Alaska (Nov., 2017).
- NASA news story on efforts to improve Arctic sea ice predictions: <https://www.nasa.gov/feature/goddard/2017/nasa-scientists-seek-to-improve-sea-ice-predictions> (quotes, Aug., 2017).
- Climate Feedback review of a Breitbart article on thick ice in a warming Arctic <https://climatefeedback.org/sea-ice-can-still-thick-places-warming-arctic/> (contributed review, Jul., 2017).
- NASA news story and press release on Arctic sea ice predictions: <https://www.nasa.gov/feature/goddard/2017/study-improves-forecasts-of-summer-arctic-sea-ice/>, additional coverage in various media outlets (quotes, Jan. 2017).
- NASA news story and press release on our extreme winter cyclone paper: <http://www.nasa.gov/feature/goddard/2016/extremely-warm-2015-16-winter-cyclone-weakened-arctic-sea-ice-pack>, additional coverage in various media outlets (quotes, drafting and visualization assistance, Nov. 2016).
- Guest blog for NASA’s Notes from the Field, The 2016 Beaufort Gyre Exploration Project, Searching for Sea Ice: <https://earthobservatory.nasa.gov/blogs/fromthefield/category/beaufort-gyre-exploration/> (Sep.–Oct., 2016).
- NASA Earth Observatory Image of the Day ‘A Polynya Seldom Seen’: <https://earthobservatory.nasa.gov/images/88656/a-polynya-seldom-seen> (recommendation and quotes, Sep., 2016).
- Guest article on the Arctic Sea Ice blog: ‘Sea ice circulation around the Beaufort Gyre’ <https://neven1.typepad.com/blog/beaufort-gyre/> (May., 2016).
- Guest blog post on The Climate Lab Book blog series: ‘The sea ice orchestra’ <http://www.climate-lab-book.ac.uk/2015/the-sea-ice-orchestra/> (Sep., 2015).
- Blog series on the University of Maryland ‘Scientists’ Soapbox’ based on my participation in the 2014 JOIS research expedition <http://essic.umd.edu/joom2/index.php/research/scientists-soapbox/1926-the-beaufort-gyre-exploration-project> (Sep., 2014).
- Public lecture on Antarctic climate change on behalf of the Cambridge zero-carbon society, (Nov., 2013).
